

OutbackWater's OB-25RDY is a patented, gravity-powered water purification system that can purify water from almost any clear water source. Using a four stage, non chemical filtration process the system can effectively remove a wide range of water related problems such as bad taste, odor, sediment, dirt, bacteria, cysts and chemical contamination and virus. Ideal for food storage programs, emergency-preparedness, disaster relief, or daily domestic potable water needs.

### **System Warranty**

OutbackWater Gravity-Powered System components are warranted to be free from defects in materials and workmanship, under normal use, for a period of one year from date of purchase. Premature filter failure due to water of questionable quality is not covered under warranty.

### **System Features**

- 
1. Removes bacteria, cysts and virus at greater than 99.99%
  2. Rated chemical contamination removal capacity of 1800 gallons
  3. Daily production rate of up to 8 gallons over a 24 hour period
  4. Storage containers are food grade High Density Poly Ethylene (HDPE)
  5. Pre-filter net rated at 100 micron
  6. Filter sleeve rated at 20 micron
  7. Pleated sub micron filter
  8. Chemical contaminant removal filter
  9. 'Safe seal' threaded filter connector
  10. Vented lid to prevent vacuum
  11. Simple lever-action dispensing spigot
  12. Two gallon upper and five gallon lower containers
  13. Indefinite shelf life
  14. Gravity powered - requiring no external power source
  15. Portable
  16. Assembled dimensions 24" H x 11.75 D weight 6 lbs when empty
  17. Proprietary molded lids providing a secure fit, yet easy removal when necessary
